## PERSONAL PROJECTS

Here is my portfolio website : https://meowmeow-afk.github.io/Portfolio-website/

Blog Site
- Here *I* created a blog site using Node.*js* as my backend technology and front end with plane Html and *CSS* with database support from mongoDb atlas (via mongoose)

Netflix-clone
- Here i created a Netflix clone using react.js and learned many new stuff about the technology along the way

Amazon-Clone
- Here i created an Amazon-clone where i have made use of React-Context-Api which is similar to how redux work but way easier and authentication with firebase.

Covid 19 Tracker
- Here i created a Covid19 Tracker that shows worldwide and country based data in both daily wise manner and overall , here i have made use of desiese.sh api and bootstrap 5 plus other libraries like react chart js 2 for data visualization and react-leaflet for the map
